Dear Monica,

I want to extend my sincere appreciation and admiration for the work you did photographing my recent Holiday Cooking Event: Appetizers & Cocktail Bites. The images you were able to capture from the night were so evocative and representative of the mood, food and festivity of the event! To capture food in photographs is more than a skill, as it truly requires an artist's eye to render just the right angle, lighting and background. You definitely have this gift and I would strongly recommend you to anyone looking for a talented and professional event and marketing photographer. Your attention to detail, focus, flexibility and passion are a true delight! Thank you for such incredible photos!

Best Regards,

Lori Cohen-Sanford,
